

# THE JAS EZ KNEE EXTENSION

## ADVANCED TURNBUCKLE TECHNOLOGY

The JAS EZ Knee Extension offers a no-compromise approach to Range of Motion (ROM) therapy – 48° flexion, 36° hyperextension – in a lightweight, easy-fit, single-patient use device. An innovative motion arc design, combined with infinitely adjustable ROM, assures precise end-range stretch throughout the entire treatment session. Maximal Total End Range Time (TERT) is achieved for optimal therapeutic benefit.

### JAS QUALITY AND PERFORMANCE IN A SINGLE-PATIENT USE DESIGN

**JAS EZ Knee Extension ROM**  
48° Flexion  
36° Hyperextension

**Optimal Comfort  
and Compliance**

**Easy to Apply,  
Simple to Use**

**Patented  
Motion Arm™**

The JAS EZ Knee Extension utilizes proven principles of stress relaxation to achieve permanent restoration of joint ROM in three 30-minute sessions per day.

The patient-controlled JAS protocol allows for *pain-free* therapy, virtually eliminating muscle guarding and assuring excellent compliance.

Features:	Benefits:
Anatomically correct arc of motion	Delivers optimal stretch loads through entire ROM
Lightweight, easy to apply and simple to use	Promotes excellent patient compliance
Fulcrum positioned away from the joint	Eliminates joint compression
Patient-controlled, infinitely adjustable ROM	Assures precise and pain-free end-range stretch; virtually eliminates muscle guarding
30-minute treatment sessions	Dramatically reduced treatment time ensures high patient compliance
Simulates manual stretch	Provides clinic-quality stretch in the home setting
